File No. 2189.8009(SRR)aj

Commander M. A. Baratta  
Public Works Officer  
Department of the Navy  
Naval Air Station  
Moffett Field, CA 94035

Dear Commander Baratta:

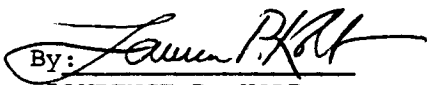

This letter is in response to your subsurface investigation proposal dated October 28, 1982. We have reviewed the proposal and find it acceptable. We are particularly pleased that you intend to install monitoring wells for your fuel tanks in addition to the wells for your waste solvent tanks. However, keep in mind that the solvent tanks are our immediate concern and delays should be avoided in investigating subsurface conditions around them. We look forward to receiving the results of your investigation as soon as possible.

If you have any questions, please call Steve Ritchie at (415) 464-4269.

Sincerely,

FRED H. DIERKER  
Executive Officer
